

# Implementation

## Coach

### This Course suits

This three day course is aimed at internal staff or consultants who will be implementing AOM/Workware (including managers already familiar with AOM/Workware).

Individuals would be expected to have demonstrated consulting and coaching competence prior to attendance on this course.

### Content Overview

Introduction to the AOM Implementation Cycle and Roadmap.

Goal Setting and use of Roadmap and supporting tools and material.

Workware v5 essentials.

Soft/Consultancy skills and the importance of coaching in the AOM Implementation process.

Basic project controls and reporting.

### Benefits and Outcomes

Participants will be qualified to support an AOM implementation under the supervision of a qualified consultant.
